

GREENMILL TRADE BULLETIN

INSIDE ISSUE #6

► Ventilation Install ► Diffusers & Grilles ► Flexi Ducting ► Air Valves

Demand for additional or more effective ventilation in buildings has increased to unprecedented levels.

Whatever your vent install requirements, there's a ceiling diffuser or exhaust grille to match.

Quick and easy to use, Flexi Ducting is the ideal solution for those really awkward installs.

Give installs a neat and tidy finish with white Air Valves. And don't forget your Ring Leader® fixing ring.

Ventilation Install Materials

For ALL your Ventilation install materials and accessories

If you're a vent engineer you'll know that the Covid pandemic has created unprecedented demand for additional, or more effective, ventilation in offices, retail, hospitality and other public buildings.

With lots of us getting back to work and leisure services opening back up, it's never been more important to deliver clean, fresh air to our communal spaces.

Whilst Greenmill has always supplied ventilation install materials, we've worked hard over the last 2 years to develop our in-stock range and make sure we have all the install materials you need for your vent projects.

Our ever growing ventilation range includes everything from secondary ductwork to swirl diffusers, plus all the bits in between. And because it's all in stock, you can order up to 5.00pm and we'll deliver it to you the next working day. Plus, our London drivers love an early start, so if you're working in the capital, most of our vans are already in town making deliveries by 7.00am.

Have you got your copy of our Version 14 in-stock catalogue?

Our latest catalogue is a must-have for all Ventilation engineers, with everything you need for your installs, including STÖRNCH Spirasafe and standard Spiral, Fans, Controllers, Flexible Ducting, Grilles, Diffusers, Plenums and Accessories.

Clear and easy to use, in a handy little A5 format that makes it perfect for keeping in your pocket, or your van door. Give us a call or drop us an email to request your copy:

Square Ceiling Diffusers

Ideally sized to replace a ceiling tile, Square Ceiling Diffusers are a very popular choice for a standard ventilation install. Made from high-quality anodised aluminium, all our square diffusers include a removable core to make essential cleaning and maintenance easier.

Choose from our range of 2-Way, 3-Way or 4-Way diffusers, depending on your air flow requirements; or if you need a bit more control over air balancing select a 4-way diffuser with an Opposed Blade Damper, OBD.

www.greenmillac.com/ceiling-diffusers

4 Way Diffusers

Providing 4-way air distribution in each direction.

3 Way Diffusers

Used in locations where more control of air flow direction is required.

2 Way Diffusers

2-Way diffusers provide precise control over air flow direction.

Swirl Diffusers

When you want to create a decent mix with the ambient air in a room, choose a Swirl Diffuser. Combined with a round plastic Plenum, the swirling vane design provides a strong outflow, with more rapid air mixing and improved air quality www.greenmillac.com/ceiling-diffusers

Eggcrate Grilles

Also available with a removable filter membrane

If you're pushing fresh air in, you need to get the exhaust air out. Our eggcrate grilles come in a range of sizes and there's also a removable filter option, with a hinged hatch for easy access.

Plenums

Plastic Plenums

Plastic Plenums are a great light-weight alternative to metal plenums. Available in round and square, with a range of popular neck sizes, plus a cut-to-size multi-spigot option for extra flexibility. And they're stackable, so they take up less room in the van or stores.

www.greenmillac.com/plastic-plenums

Metal Plenums

Zinc plated steel, with spot-welded and primed seams, our Metal Plenums are tough and fire resistant. Choose from a range of sizes, with top entry or side entry if you're short on head space.

www.greenmillac.com/metal-plenums

Air Valves, Flexible Hose & Clamps

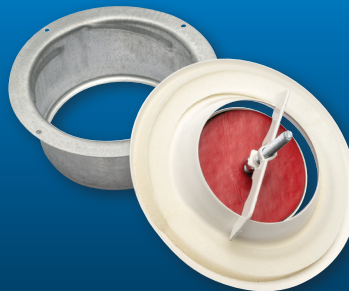

Quick and easy to use, Flexi Ducting is the ideal solution for those awkward installs. Available in all popular sizes, choose from standard, insulated or Combi Flexi Ducting if you need extra strength and durability. And don't forget those hose clamps. www.greenmillac.com/flexible-ducting

Air Valves

White supply/exhaust Air Valves give any install a neat and tidy finish. Available in metal or a sleek plastic design; both models include an adjustable middle to control airflow.

Fire Rated Air Valves

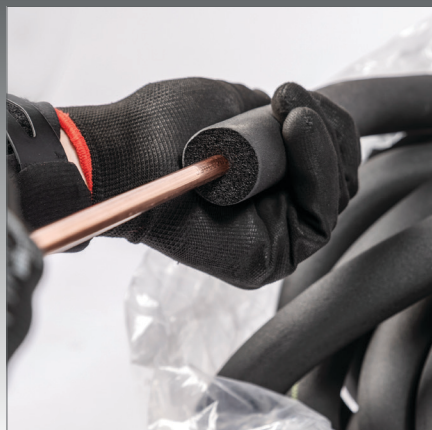

Our Fire Rated Air Valves can maintain the integrity of Fire Rated ceilings for up to 60 minutes when activated. Plus they're really easy to retrofit if you're replacing existing valves.

Air Valve Fixing Rings

No more fiddling around trying to get a fix in a crumbly ceiling tile. The clever Ring Leader® provides a quick and simple solution to securely fixing your Air Valves in both suspended and solid ceilings.

Large stocks of...

AC Install Materials

Most people already know us as one of the UK's leading suppliers of AC Install Materials. But it's always worth a reminder, just in case it's slipped your mind. www.greenmillac.com/air-conditioning

Hybrid Install Materials

Along with all the Hybrid Install Materials you need, we also provide loads of essential resources, from installation schematics, to training videos and certification. www.greenmillac.com/hybrid-materials

Heat Pump Install Materials

From ASHP Pipework and Hoses to Water Components and Unit Guards, our range of specialist Heat Pump Install Materials is expanding all the time. www.greenmillac.com/heat-pumps
