

# GREENMILL TRADE BULLETIN

## INSIDE ISSUE #4

### ► Envirotuff Cable

A tough alternative to SWA that's impact, UV and water resistant. Ideal for interior and exterior use.

### ► Black SY & CY

Super smart on a tray run, combined with Black Grip Locks, Black Braided Hose and Black Armaflex Lagging.

### ► Fire Rated Cable

Designed to perform during a fire. Plus they're Low Smoke Zero Halogen (LSOH) screened.

### ► Accessories

If we don't stock the isolator or electrical accessories you need, then you probably don't need them.

## AC Electrical Cable Edition

## For ALL your Air Conditioning Electrical Cable and Accessories

Request your copy of our In-Stock version 14 catalogue today

When the Greenmill Bulletin does a focus on cables and accessories, we don't pick any old electrical cables. Nope, we focus on the products that we know our customers use; electrical cables and accessories for AC installs.

In fact, we like to think of ourselves as a bit of an AC cable specialist. So whatever you're looking for, from UV resistant power cables to CY screened control, it's very likely we stock it.

We also know you'll need loads of other bits and bobs to do a proper job. So we've also got all your standard accessories covered, including boxes, isolators, enclosures, switches, glands, grommets plus every cable tie and cable tie base you're ever likely to need.

Of course, stocking a comprehensive range of cable ties and bases doesn't necessarily make us your "AC materials supplier of the year". But combine it with a top-notch customer experience, quick and easy online ordering, next day delivery, a hugely popular customer reward scheme, plus the free sweets that we put in every order, and we're pretty close!

**Order up to 5pm for  
next day delivery.**

**Request your catalogue today!**

From LSF Fire cable to connectors and crimps, our AC electrical range is in-stock and available for next-day delivery. Whether you're ordering over the phone, by email or through our website, if you do it by 5pm we'll get your order to you next-day.

Remember, if you need it really early you can choose to pick up your order from 6.30 am the next morning at our centralised GMCollect hub in Kempston, just off the A1.

## Do more with MyGreenmill

Every decent AC install materials supplier offers online ordering these days. But most customers need more than just the ability to buy online. Which is why we developed the MyGreenmill Online Dashboard.

MyGreenmill is like your very own project support team; helping you order and manage your materials, organise your sites and monitor your project spend. Freeing you up to do more for your business.

Whether it's your engineers ordering or your subbies, Engineer Approval keeps your office in control of project costs. Need to order materials quickly? Use Quick Order. And if you're ordering the same things regularly, add them to your Favourites List. Plus access all your current and historical My Project details, convert My Quotes into orders, or find out where all your Greenmill cylinders are with (you guessed it) Cylinder Tracker.

We've even made it really easy to pay your account (though to be fair, that's mainly for our benefit). In fact, there's so much in MyGreenmill that we can't really do it justice here, so we've made some snazzy videos on all of the features, which you can view here:

## Black & Clear SY Braided Sheath Cables

Clear  
SY

Good  
stocks of  
**BLACK**  
SY cable

Available in both Black and Clear, our STÖRNCH SY Braided flexible cable is PVC insulated and sheathed, with a galvanised steel wire braiding for effective mechanical protection. Judging by the GreenmillDesign.com gallery images you send us, it's obvious that lots of engineers love a really neat and tidy install. And our black SY cable looks super smart on a tray run, combined with Black Grip Locks, Black Braided Hose and Black Armaflex Lagging.

To see our full range of SY Braided Sheath Cable, including UV protected LSOH, head over to: [www.greenmillac.com/sy-braided-sheath](http://www.greenmillac.com/sy-braided-sheath)

## LiYCY Screened Control Cables

If you're looking for a flexible and screened control cable, STÖRNCH LiYCY Screened Cable is just the job. The aluminium foil and tinned copper wire braid provide protection from electromagnetic interference (EMI) and reduce electromagnetic radiation (EMR).

Constructed to deliver effective electromagnetic compatibility (EMC), this cable is available in Grey and Black, with a range of sizes and cores, plus a LSOH version.

Everything you need (EYN) for CY screened control cabling is available online, with next-day delivery, at: [www.greenmillac.com/cy-screened](http://www.greenmillac.com/cy-screened)

Good  
stocks of  
**BLACK**  
LiYCY

## Flex Cables

Sometimes on a job you need cable that's a bit basic, with no bells and whistles. No letters in brackets. No special resistance to Encryption or Gamma Radiation. Because there's limited potential for mechanical stresses or damage, you just need a standard flexible cable. **Ta dah!** [www.greenmillac.com/standard-flex-cable](http://www.greenmillac.com/standard-flex-cable)

## LSF/LSOH Fire Cables

What can we say about the STÖRNCH LSF/LSOH Fire range? For a start, they are designed to perform during fire, obviously. Plus they're Low Smoke Zero Halogen (LSOH) screened. We also do a Flexishield cable, with a fail-safe that can withstand fault currents of up to 200A. So we reckon we're covering pretty much all the bases. [www.greenmillac.com/lst](http://www.greenmillac.com/lst)

Printed with  
'AIR CONDITIONING'

Printed with  
'AIR CONDITIONING'

## Isolators & Accessories

Our V14 catalogue includes a range of outdoor and indoor AC isolators spread over 4 pages. So if we don't have the isolator you need, then you probably don't need it.

Uniquely, all our indoor isolators have 'AIR CONDITIONING' printed on them - useful for when someone's looking for the loo light.

Check out the range here:  
[www.greenmillac.com/isolators](http://www.greenmillac.com/isolators)

## Cable Ties & Cable Tie Bases

If you love a neat and tidy install, you'll love our cable management range. We've got standard ties, quick release and push stainless. Plus a tie base for almost every situation.

SCREW  
TIE BASES

PUSH IN  
TIE BASES

SELF-ADHESIVE  
TIE BASES

STANDARD  
CABLE TIES

RELEASABLE  
CABLE TIES

STAINLESS  
CABLE TIES
