This watermelon lemonade looks amazing but is super-simple to make. It's perfect for a kid's party or makes a refreshing summer drink for kids or adults

### METHOD

**STEP 1**

Cut the top off the watermelon and hollow it out using a large spoon, fishing out any pips along the way. Mash the flesh through a sieve into a bowl. Put the flesh in a blender (or use a tall jug and hand blender) with the lemon juice and sugar, whizz to a purée, then stir in the soda.

**STEP 2**

Heap some ice into the hollowed-out watermelon and fill it with the lemonade mixture. Serve the rest in a jug with the lime slices and mint. Have a bowl of extra crushed ice on the side so people can help themselves.

### INGREDIENTS

1 large or 2 small watermelons  
250ml lemon juice (from a bottle or squeeze your own)  
100g golden caster sugar  
1l bottle soda water  
1 lime, cut into slices  
small handful mint  
crushed ice
