

Braided PVC Hose

PRODUCT CODE(S)

GMBH14B/14C/38B/38C/12

STÖRNCH Braided PVC Hose is tough, flexible and extremely durable under normal operating conditions - the hose is reinforced with high tensile polyester fibres. Resistant to a wide range of chemicals, STÖRNCH Braided PVC Hose is suitable for condensate drains and comes packaged in clear shrink wrap for protection and easy storage.

The braided PVC Hose is also available in a black version, which has no light penetration, limiting build-up of mould/algae growth.

USES

This product is an ideal pipe for water, gas and oil in general equipment such as industry, agriculture, construction and domestic applications.

CONSTRUCTION

Two layers of clear flexible PVC bonded together encapsulating high tensile polyester fibres.

FEATURES

- Optimum flow maintained by the smooth bore
- Excellent transparency (clear version) enabling blockages to be located
- Reinforced with high tensile polyester fibres
- Flexible and extremely durable
- High chemical resistance

STORAGE

Hose stored in conditions above +5°C will be easier to handle/install.
