

STÖRNCH Spiral

STÖRNCH Spiral is the recognised system of ventilation ducting. The system is available in a range of sizes (from Ø100 to Ø400mm). For optimum performance, use the STÖRNCH SpiraSafe fittings which ensure exceptional airtightness to Class D, due to their EPDM rubber gasket.

USES

- Suitable for high, medium and low pressure applications

CONSTRUCTION

- Galvanised Steel spiral wound rigid duct, incorporating an air tight lock-formed seam

FEATURES

- Standard 3m lengths
- Conforms to HVAC DW144
- Full range of fittings and accessories available to purchase
