Channel Nuts

Channel nuts are a quick and easy way to connect channel to bracketry and any other mechanical systems; they have a very wide range of applications.
The channel nuts are simply inserted into the channel and then twisted, the springs hold the nuts firmly in place in standard 41mm deep channel allowing positioning and securing the required fixing.

They are equipped with toothed grooves designed to securely engage the lip of the channel, providing enhanced stability and effectively preventing unintended movement. This gripping mechanism is crucial for preserving the structural integrity of installations, particularly in environments prone to vibrations or dynamic loading conditions.

PLAIN
Zinc plated (BZP)

Code	Description
GMCN22	STÖRNCH Channel Nut M6 Plain (Pack 100)
GMCN23	STÖRNCH Channel Nut M8 Plain (Pack 100)
GMCN24	STÖRNCH Channel Nut M10 Plain (Pack 100)
GMCN25	STÖRNCH Channel Nut M6 Short spring (Pack 100)
GMCN26	STÖRNCH Channel Nut M8 Short spring (Pack 100)
GMCN27	STÖRNCH Channel Nut M10 Short spring (Pack 100)
GMCN28	STÖRNCH Channel Nut M6 Long spring (Pack 100)
GMCN29	STÖRNCH Channel Nut M8 Long spring (Pack 100)
GMCN30	STÖRNCH Channel Nut M10 Long spring (Pack 100)
GMCN43	STÖRNCH Channel Nut M12 Plain (Pack 100)

SHORT SPRING
Zinc plated (BZP)
Perfect for shallow channel

LONG SPRING
Zinc plated (BZP)
Perfect for deep channel
